

# **Mayland/Maylandsea Village Plan Survey**

**A survey questionnaire will be coming to every Mayland Parish household this Autumn.**

**It is a current government initiative to enable small communities such as ours to determine its needs and shortcomings. Parish Plans and Village Design Statements have already been produced by many parishes/villages across the country. At the moment many villages in Essex are engaged in this process of self-enablement with full support of The Rural Community Council of Essex (RCCE). Everyone in the village is entitled to express their opinion and it is proposed to deliver this by means of a survey. After the survey is processed there will be an open day/workshop where you will be invited to make further comments and contributions.**

**Completion of your survey is central to influencing community well-being, delivery of services, provision of facilities and providing positive guidance on acceptable design in the Parish.**

**If you wish to help or be involved in the preparation of the Village Plan please contact Volunteer Group  
Secretary Peter Spires 01621 740010**
